

METAL BUILDING COMPONENTS

TYPES OF INSULATION

DOUBLE BUBBLE INSULATION

1/8"
double bubble

- ✓ Acts as a thermal break + condensation barrier
- ✓ Prevents that common issue: **water dripping from the roof.**

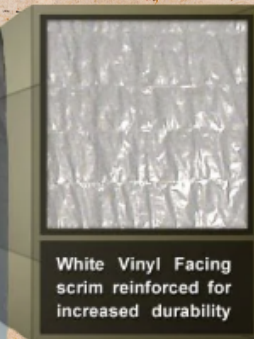

Whether it's fiberglass, double bubble, or Prodex insulation isn't an upgrade... it's a necessity!

METAL BUILDING COMPONENTS

TYPES OF INSULATION

SOL-R ECLIPSE

- ✓ Delivers the highest R Value available from a reflective insulation on the market.
- ✓ Acts as a vapour barrier.
- ✓ Board Like Appearance (black and white facing available).

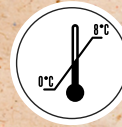

METAL BUILDING COMPONENTS

TYPES OF INSULATION

FIBERGLASS INSULATION

- ✓ Creates a **thermal barrier + reduces condensation**
- ✓ Better heat reflection.

Whether it's fiberglass, double bubble, or Prodex insulation isn't an upgrade... it's a necessity!

Thickness:
2"-4"
